Information in each chapter and each assignment will provide a framework for the next topic of discussion. The pace of this course is intense, and the workload is significant. Accordingly, students must commit to the following guidelines:

Preparation—the class discussion will mean little if text material is not read.

Promptness—late arrivals disrupt the class and adversely impact the decorum of the process.

Participation—it is each student's responsibility to share in the advancement of the group.

Presence—you are responsible to find out what was missed and what may be due in the next class session if you are absent. You are also responsible to turn in items due on or before their due dates, even if you are not in class.

VI. Academic Policies

Academic Honesty—all academic dishonesty, including plagiarism, will be reported.

Course Material—material will be covered in class that is **not** presented in the textbook. Exams will cover this material as well as the assigned textbook material.

Exams—**failure to take an exam on the assigned date will result in a ZERO for that test** unless I approve the absence in advance or it is an emergency that is excused by the Academic Dean. If you travel on a school-approved organization, such as an athletic team, you are responsible for submitting required material prior to your departure or via email while traveling.

Cell Phones – **May not be used during class. They should be turned off!**

Other—all other academic policies are described in the [Student Handbook](#).

VII. Evaluation

Upper level college level work is expected in this course. Accounting is a practice! Students should plan on the following in order to succeed in this course:

- Read each chapter
- Actively answer the end of chapter questions and participate in class
- Work the exercises and problems until understanding occurs. This may mean working the problems, getting them wrong, reworking them, and possibly repeating the cycle. Practice is the key!
- Seek help if you still do not fully understand a concept or problem. The instructor is here for you. Your fellow classmates are wonderful resources as well. Feel free to make use of the Chat and Discussion features in our Blackboard classroom.

X. Class Attendance

Students are both expected and encouraged to attend classes regularly. **Attendance means arriving on time and being present in class with textbook, pencil/pen, and calculator.**

The lack of attendance may affect a student's grade. For traditional fall and spring semesters, a student may miss a class without penalty equal to the number of times a class meets per week as follows:

1. If the class meets once a week a student may miss one class.
2. If the class meets two times a week a student may miss two classes.
3. If the class meets three times a week a student may miss three classes.

If a student's absences exceed the number of times a class meets per week, a professor may:

- Subject the student to a penalty of not more than one letter grade based on attendance alone.
- Recommend to the Vice President for Academic Affairs that a student with excessive absences be withdrawn from the course.

Being tardy to class also counts towards your absences. I track late arrivals as follows:

1. If the class meets once a week, each tardy is one-half of an absence
2. If the class meets two times a week, each tardy is one-half of an absence
3. If the class meets three times a week, each tardy is one-third of an absence

The last day to officially withdraw from this course is Monday, October 20, 2008. A Course Withdrawal form (available in the Office of the Registrar or on the University website under Academics/Registrar/Forms) must be submitted no later than 11:59 PM on October 20, 2008.
